

**Université Ste-Anne**  
**Nova Scotia**

This program is specifically designed for teachers, who wish to renew their didactic skills, to enrich their supply of pedagogical activities, and to immerse themselves in a dynamic French atmosphere. The students participate in an extensive 4-week period of courses. They are led by a team specifically trained to meet the need of teachers with the latest approaches to the instruction of French.

Participants are encouraged to bring current teaching materials such as textbooks, as well as material to create new classroom activities (scissors, markers, glue, etc.). A wide spectrum of social and sporting activities conducted exclusively in French complements the academic program and helps make these four weeks a living experience that enriches participants on both personal and professional levels.

**Date**

4 weeks: July 1 to 28, 2012

**Cost**

\$2 080 (\$200 enrolment fee)
